

Mostefa Terbeche

FULL STACK WEB DEVELOPER

termus96@gmail.com

GitHub | LinkedIn | Twitter | Portfolio

SUMMARY

Full-Stack web developer and open-source enthusiast who loves clean code, accessible design, and Artificial Intelligence. Pair programming and remote work. Fluent in multiple languages, frameworks, and technologies, and capable of fast learning and creative thinking

SKILLS

Front-End: JavaScript, TypeScript, Vue, Nuxt, React, Redux, jQuery, HTML5, CSS3, SASS

Back-End: Python, Django, Ruby, Rails, Scala, PostgreSQL, MySQL,

Tools & Methods: Git, GitHub, Heroku, Netlify, Docker, Responsive Development, Chrome Dev Tools, Sentry, Metabase, AWS

Professional: Mentoring, Remote, Pair-Programming, Teamwork

EXPERIENCE

Software engineer freelancer at LD Talent

2/2024 – current

Completing internal and external tasks on the platform related to web development and web scraping using Python & Django, Selenium, HTML, CSS, and JavaScript

Software engineer intern at torre.ai

5/2023 – 12/2023

Gaining experience in identifying and resolving bugs, creating innovative features, and enhancing user experience. I implemented high-quality and impactful solutions using a variety of technologies including Scala with Play Framework, Python with Django, Kotlin, and Vue with Nuxt

Full Stack Web Development Student at Microverse

4/2022 – 11/2022

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects independently and via pair programming.

Budget App – Mobile web application where you can manage your budget: you have a list of transactions associated with a category so that you can see how much money you spend and on what. Built with: Ruby on Rails, PostgreSQL, Tailwind CSS

Social Network – A user-friendly platform enabling account creation, and group interaction through posts and comments, with additional admin privileges for group management. Built with: Ruby on Rails, PostgreSQL, Tailwind CSS

Countries Information – In this project, I have worked with real live data from the RESTCountries API. This web application provides some information about more than 250 countries worldwide like the area, population, capital, continent, and official flag. Built with: React, Redux, CSS3, and Webpack

EDUCATION

ABOU BEKR BELKAID UNIVERSITY

Bachelor's, Information Systems

9/2019 – 7/2022

- Create a vitrine website for an indie game

Ph.D., Pharmacy

9/2015 – 11/2021

- Thesis published under the name: Physician's acceptance and knowledge in herbal medicine: A cross-sectional study in Northwest Algeria

MICROVERSE

4/2022 – 11/2022

Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux
- Developed skills in remote pair programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with an international remote developer

UDACITY

Nanodegree, Data Analyst

11/2022 – 3/2023

- Worked with large datasets, and performed data wrangling, data cleaning, and data visualization.
